

What is a Community Transportation Plan?

ROLESVILLE MOVES

Community Transportation Plan Update

ANNOUNCEMENTS

- Thank you to everyone who took the **CTP Survey**. A summary of results is coming soon!
- The project **Steering Committee** will be meeting for the first time in July! Stay tuned for a recap.
- The **Existing Conditions Report** is ready! Check out the project website for more information.

Transportation is an important part of our daily life in Rolesville. It affects how we move through the area and how we experience our town. A Community Transportation Plan, or CTP, will establish Rolesville's local vision for transportation and identify ways to achieve it. The CTP will help us coordinate with future development, establish policies and programs, and get projects funded.

Our CTP will be a powerful advocacy tool as Town staff seek to communicate local priorities to regional partners, including staff and elected officials, private developers, the Capital Area Metropolitan Planning Organization (CAMPO), the North Carolina Department of Transportation (NCDOT), and the public.

BEHIND THE SCENES

It's never too soon to think about the future. The project team is just beginning to take the results from the CTP survey (and engagement from other plans) and the understanding of existing conditions to create an initial set of recommendations and potential cross sections.

SPOTLIGHT

The Town has created a convenient webpage that will include helpful information about ongoing plans and studies, including the updates to the CTP and UDO. Check it out at www.rolesvillenc.gov/planning/whats-new-plans-progress.
