It's okay to play outside for an hour or more

Orange

Limit outdoor play to 1 hour or less

Red

Limit outdoor play to 30 minutes or less

Purple & Maroon

Keep play indoors.

AQI Basics for Ozone and Particle Pollution			
Daily AQI Color	Levels of Concern	Values of Index	Description of Air Quality
Green	Good	0 to 50	Air quality is satisfactory, and air pollution poses little or no risk.
Yellow	Moderate	51 to 100	Air quality is acceptable. However, there may be a risk for some people, particularly those who are unusually sensitive to air pollution.
Orange	Unhealthy for Sensitive Groups	101 to 150	Members of sensitive groups may experience health effects. The general public is less likely to be affected.
Red	Unhealthy	151 to 200	Some members of the general public may experience health effects; members of sensitive groups may experience more serious health effects.
Purple	Very Unhealthy	201 to 300	Health alert: The risk of health effects is increased for everyone.
Maroon	Hazardous	301 and higher	Health warning of emergency conditions: everyone is more likely to be affected.

<https://www.airnow.gov/aqi/aqi-basics/>

What is the U.S. Air Quality Index (AQI)?

The U.S. AQI is the United States Environmental Protection Agency's (EPA) index for reporting air quality.

How does the AQI work?

- Think of the AQI as a yardstick that runs from 0 to 500. The higher the AQI value, the greater the level of air pollution, and the greater the health concern. For example, an AQI value of 50 or below represents good air quality, while an AQI value over 300 represents hazardous air quality.
- For each pollutant, an AQI value of 100 generally corresponds to an ambient air concentration that equals the level of the short-term national ambient air quality standard for the protection of public health. AQI values at or below 100 are generally thought of as satisfactory. When AQI values are above 100, air quality is unhealthy: at first for certain sensitive groups of people, then for everyone as AQI values get higher.
- The AQI is divided into six categories. Each category corresponds to a different level of health concern. Each category also has a specific color. The color makes it easy for people to quickly determine whether air quality is reaching unhealthy levels in their communities.

c. Heat Index

Town of Rolesville staff utilizes the NOAA and National Weather Service Heat Index Chart to determine the amount of time it is safe to play outdoors and how often breaks should be taken. Staff does not want to keep campers from having fun outdoors, but want to ensure safety of all participants.

d. Assisted Medication Policies and Procedures

Town of Rolesville employees only administers medication to participants if:

1. The Assisted Administration of Medication form is completed and in the possession of Town staff.
2. The medication is in the original container with appropriate medicine contained within, with a visible label including the name of the medication, the date of expiration, clear dosage amount, and directions with the participant's name CLEARLY INDICATED on the bottle/box.

The Parent/Guardian is responsible for the following with ALL medication:

1. Complete and sign the form and return it to the program staff.
2. Provide medication in an original container with a visible label including the **name of the medication**, the **date of expiration**, and **clear dosage amount** and administration directions with the **participant's name CLEARLY INDICATED**.
 - a. Note: Inhalers outside the original package must be accompanied by a copy of the original package label noting the above information.
3. Provide new, labeled containers if/when medication changes are made.
4. Transport medication to the program site and give it directly to program staff.
5. Pick up medication at the end of each week/program from the program staff. Program staff will dispose of medications that are not picked up at the end of 14 business days following the last day of participation in the program.
6. Recreation program employees will dispose of empty containers (unless otherwise instructed).

For prescription medications:

7. The pharmacy label will serve as the physician's authorization for the medication to be administered. Have the pharmacist label two containers: one for home use and one for use in the program, if the participant is to receive medication at both sites.
8. If the medication is an EPI pen or inhaler, it is recommended (not required) that the pharmacist label two containers to keep at the program site. The parent/guardian should check to ensure the medication does not exceed the printed expiration date. Program staff will not accept expired

medication.

For non-prescription medications:

9. The medication must be administered according to the dosage and administration instructions on the original container.
10. **A physician's signature will be required as authorization IF medication is requested to be given in an alternate dosage, etc.

You may babysit on your own time; however, staff cannot drop off or pick up campers from camp while also working as a Camp Counselor or Camp Director.

The group who is not on the field trip will stay at the camp facility and participant in normal camp activities during that time.

Staff will not hold the van past the departure time to wait for a participant who is running late. It is the parent/guardian's responsibility to bring the participant to the field trip location or back to the program site if the participant misses the van.

If a participant arrives after the vehicle has left the camp facility, the parent/guardian can do either:

I further hereby release, absolve, indemnify and hold harmless the Rolesville Parks & Recreation, its employees, staff, and volunteers acting on behalf of the Rolesville Parks & Recreation. In the event of an injury to my child, I agree to allow the persons acting on behalf of the Rolesville Parks & Recreation to seek medical attention in my absence. I further agree to follow all rules and procedures of the program and to follow the reasonable instruction from Rolesville Parks & Recreation staff. I/we certify that we have read and agree to the terms stated above and that the information is correct to the best of my/our knowledge.

The Town of Rolesville reserves the right to alter schedules, field trip groups, fees, and instructors as necessary. Camps are subject to cancellation if minimum enrollment numbers are not met.

Staff reserves the right to place a camper in a lifejacket in the interest of safety. Parents/Guardians may request their child wear a lifejacket regardless of the swim test results. The swim test will require a participant to swim the length of the pool without touching the sides or needing assistance. The Town staff will keep record of swim test results.

z. [Transfers/Withdrawals](#)

Transfers

If a parent/guardian needs to transfer from one week of camp to another, it must be sent in writing via e-mail to allison.fehlman@rolesville.nc.gov.

Withdrawals

If a parent/guardian needs to withdraw from a week of camp, a refund request form must be filled out online at <https://www.cognitofrms.com/TownOfRolesville/RefundRequestForm>

aa. Waitlist Notifications

If a spot becomes available in camp, parents/guardians will be notified by telephone and/or e-mail by Town of Rolesville staff. Parents/Guardians will have 24 hours to accept the space and make payment. If notification is not received within 24 hours, staff will move on to the next person on the waitlist. All members of the waitlist will be contacted before returning to the top of the list if necessary. Participants on the waitlist are not subject to the \$10 late registration fee.

bb. 911 and Other Emergencies

If an emergency arises and the staff needs to call 911, the part-time employee should inform the full-time supervisor of the situation first (unless it involves a life-threatening emergency). If part-time staff are unable to reach full-time staff for authorization, they need to call 911 and then continue trying to contact the full-time employee until they are successful.

If 911 is called, staff members need to address the following simultaneously:

- Contact and notify the participant's parent/guardian.
- Comfort and attend to the injured participant to the best of their ability.
- Gather participant information from the registration form to share with EMS staff.
- Continue to run the program in a calm manner; a staff member may have been pulled out of their usual responsibilities to address the situation. Participants may be separated or removed from camp to better handle the situation.
- Document the incident on the appropriate form(s).

Once EMS has assumed medical care of the participant, staff members are now in an administrative role representing the Department.

- If the parent/guardian is not on-site before or while EMS is there,
 - The parent/guardian may offer information over the phone but they **do not** alter the decision of EMS to transport.
 - An employee must travel with the participant if EMS transports the participant to the hospital.
 - Staff should also make every attempt to keep the parent/guardian informed of any decisions and reassure them that we will continue to monitor and comfort the participant until they arrive (on-site or at the hospital).
- If the parent/guardian arrives on-site before or while EMS is there,
 - The parent/guardian and EMS personnel may decide together the course of action.
 - The participant is then in the care of the parent/guardian and EMS staff.

An accident report should be completed as soon as possible to accurately capture the events surrounding the accident/injury.

4. Behavior Management

We encourage the practice of positive reinforcement for behavior management. For behavior concerns and/or problems, our department practices the following:

1. The participant is given a verbal warning about behavior.
2. If the behavior persists, it will be communicated with the parent/guardian to see what strategies can be developed as a solution.
3. If the behavior continues, an incident report will be written.
 - a. To be filled out by the Camp Director and/or staff who witnessed the behavior.
 - b. Preferable to have the Recreation Program Coordinator's signature on the incident report, but it is not required and is still enforceable without their signature.
4. Additional behavior concerns will result in a second incident report and a 2-day suspension from camp.
5. If the behavior persists, a third incident report will be written and can include participant dismissal from camp.
6. For offenses such as but not limited to fighting, theft, vandalism, bullying, verbal threats, possession of weapons, safety issues, etc., the participant can face immediate suspension or dismissal from camp.

Behavior Management Models

A positive behavior management model may be implemented by the Camp Director to help encourage participants to model good behavior during the program. The Camp Director will work with the Recreation Program Coordinator to decide what, if any, model should be implemented.

- Stop Light Incentive
 - Each participant receives a color (red, yellow, green) depending on their behavior for the day
 - Give weekly prizes for those that meet 80% green for the week (prize box, etc.)
- Ticket Incentive
 - Give participants tickets when you notice them following directions and behaving well
 - Go “shopping” each week from the goodie store with their tickets
 - Participants can spend their tickets each week or bank them from week to week
- Bead Incentive
 - Multiple color beads represent different character traits (honesty, respect, field trip, etc.)
 - Beads awarded before afternoon snack each day
 - Participants that meet predetermined bead criteria (number of beads) get to participate in a special activity on Friday
 - Wii, Movie, Cooking/Food Project, etc.

5. If's and What If's

a. Accidents/Injuries

Incidents will happen and some may result in injuries. Staff will be educated on basic first aid, CPR and bloodborne pathogens. In the event of an incident, make sure to complete an accident report. This is an internal document in case any questions arise. Staff will always inform the parent/guardian about the accident or injury when they come to pick up their camper.

The parent/guardian can request a copy of the report by emailing the Program Coordinator at allison.fehlman@rolesville.nc.gov.

b. Missing and/or Lost Child

Preventative Measures - Conduct headcounts, know your participants, do not allow a participant to leave the group unattended, ensure staff has appropriate identification.

The following steps should be followed if a participant is discovered to be missing

1. Keep campers assembled, orderly, and assure proper supervision of participant groups.
2. Designate a staff person to search for the missing participant.

Conduct a Search

1. Check the Sign In/Out sheet to see if the participant has already left for the day.
2. Check the daily attendance record.
3. Check with other staff members.
4. Ask members of the missing participant's group and his/her close friends if they know where the participant could be.
5. Check the participant's last known location.
6. Check all areas of the camp and the camp's perimeter.
7. Notify the Camp Director and/or Recreation Program Coordinator.

Notification Procedures

1. As soon as it is determined that the participant is missing, counselors should notify the Camp Director who will notify the Recreation Program Coordinator.
2. The Recreation Program Coordinator will notify the Recreation Director and parents/guardians.
3. The Recreation Program Coordinator will notify the authorities.

Arrival of Authorities

1. Provide whatever assistance necessary.
2. Have information ready:
 - Participant's Full Name
 - Participant's Address
 - Participant's Age
 - Description of what the child was last seen wearing
 - Parent/Guardian Information
 - Medical Concerns
 - Information/circumstances leading up to the disappearance
 - Secure a picture of the child, if possible

Documentation

1. Complete a report of all the facts as they occurred as soon as possible after the incident. The report should be given to the Recreation Program Coordinator.

c. Suspected Child Abuse

We are bound by law to report any reasonable suspicion that we may have concerning incidents of abuse or neglect. If you have reason to believe that abuse or neglect may be taking place, please inform the Recreation Program Coordinator and/or Recreation Director. This is very serious and must be handled immediately; waiting will only be harmful to the child.

Any person or institution who has cause to suspect that any juvenile is abused or neglected shall report the case of that juvenile to the Director of the Department of Social Services in the county where the juvenile resides or is found. The report may be made orally, by telephone, or in writing. The report shall include information, as is known to the person making it, including the name and address of the juvenile; the name and address of the juvenile's parent, guardian, or caretaker; the age of the juvenile; the present whereabouts of the juvenile if not at the home address; the nature and extent of any injury or condition resulting from abuse or neglect and any other information which the person making the report believes might be helpful in establishing the need for protective services or court intervention. If the report is made orally or by telephone, the person making the report shall give his/her name, address, and telephone number. Refusal of the person making the report to give his name shall not preclude the Department's investigation of the alleged abuse or neglect.
