Subject: **Plan Revision 1 for Merritt Reserve**, Wake County Permit #: SEC-145177-2025

Dear Mr. Blackburn,

The following items have been uploaded for your review:

- Revised Construction Sequence
- Overall Plan Sheet exhibits of Plan Revision 1

This plan revision is to add subphases to the erosion control plan as requested by the developer. The reason for this subphases is to allow the developer to construct a small section of the project for their model homes.

Please feel free to call should you have any questions, comments, or wish to discuss this matter in further detail.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jakob Klein", is written over a light blue horizontal line.
