Catherine Ann Faison Keith, 4244 Burlington Mills Road, Rolesville

Has yet to receive a reply following the neighborhood meeting held by the developer of Toms Creek. Concerns regarding blasting and existing wells (including her well which lies within 50' of the project property as well as rental properties) with respect to the proposed project. Asking who would be responsible should loss of water occur. Seeking an agreement to refrain from using Rocky Knoll Lane and 60' easement to ward against construction equipment/truck damage. Requests a fence on east, south and west sides of her property in addition to the proposed type-two buffer. Do away with entrance and exit "B" located at the Pearce homeplace (5 acres sold separately) and increase the length of storage lanes. Asked if Lillie Liles Road or Drayton Reserve could be used as alternative ingress/egress.

Kelly Jennings, 3901 Burlington Mills Road

Resident and business owner at intersection of Burlington Mills and Forestville Road and spoke pertaining to proposed Toms Creek development and Burlington Mills realignment. Concerned with how the road improvements will affect both of her properties. Ms. Jennings also stated that she was not aware of the proposed Burlington Mills Road realignment until researching the proposed Toms Creek development.

George Garcia, 524 Averette Road, Wake Forest

NC DOT came to the front of his property to inform him of a traffic plan at the intersection of Jones Dairy and Averette Road in conjunction with the Preserve at Jones Dairy Road development. Approval of the development has caused a future traffic problem and impact the front of his property. Mr. Garcia alleged little impact is to be experience by the property across Averette Road from his and he feels singled out.

Lindell Perry, 217 Forrestville Road

Concerned about proposed stoplight with regards to his ingress/egress. Has spoken with the Wake County Sheriff's office regarding accident last evening and traffic on the road. Concerns with losing trees and if there is going to be a buffer installed.

4. Advisory Board Appointments.

Commissioner Medley reported that there were five applicants and the members chosen to be recommended for appointment were Davion Cross, incumbent to the Planning Board; Tisha Lowe, as a new member; and Derek Versteegen who was formerly on the Parks & Recreation Advisory Board and Open Space and Greenway Committee as a new member. Moved by Commissioner Medley that the recommendation of the candidate interview committee be accepted and that Derek Versteegen be appointed to the Planning Board to finish out the two-years of the term vacated by Renorda Pryor and Davion Cross and Tisha Lowe be appointed to the two three-year terms beginning January 2023. The motion was seconded by Commissioner Sutton and carried unanimously.

5. Remote Participation Policy

Town Attorney Dave Neill reminded the board of its adopting a remote participation policy back in March 2020. The policy was amended in April when the NC legislature allowed for electronic meetings in response to COVID-19. As the state of emergency by Governor Cooper was lifted, remote participation and electronic meetings are no longer covered by statute, causing municipalities to return to local policy if one exists. The Town of Rolesville policy carried a sunset provision of the end of 2020. The policy has been brought back before the board with additional provisions governing grounds for remote participation, listing allowable reasons to preclude abuse.

Moved by Commissioner Vilga for adoption of the proposed second restated and amended Remote Participation Policy; seconded by Commissioner Sneed. Motion to adopt carried by unanimous vote.
