Plan Revisions

Janet,

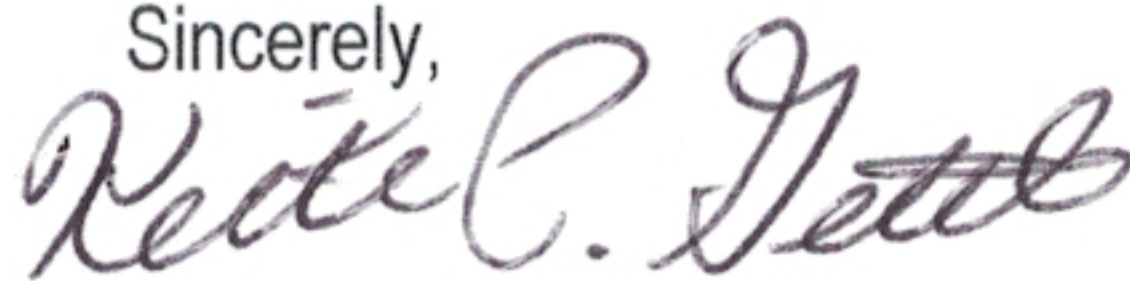

Gettle Engineering and Design, PLLC is resubmitting construction plan documents with modifications to the erosion control measures and stormwater design to reflect Staff comments as noted in the attachment. Staff comments are noted with a response.

As you know, the site is currently going through the rezoning process; the area from the adjacent lot will be included with the project parcel. After the recombination and rezoning approvals, I will modify the existing stormwater permit (S006112) for the StorageMax parcel.

Please advise if further clarification is required; email address is [Kpgettle@gmail.com](mailto:Kpgettle@gmail.com) or (919) 210-3934.

Thanks in advance for your help and consideration regarding these matters.

Sincerely,

Keith P Gettle, PE  
NC 30913
