Resources

Business Registration

All new businesses are required to register with the N.C. Secretary of State's Office prior to conducting business in North Carolina. Go to www.sosnc.gov and search "Launching a Business." There is no registration process with the Town of Rolesville.

Moving Into an Existing Building

When moving into an existing building, a "Change of Tenant" form is required. Upon approval, the application will be shared with the Fire Marshal's Office. They will contact you directly to schedule an inspection for compliance with the North Carolina fire and building code.

To view the required "Change of Tenant" form and submit online, go to rolesvillenc.gov/planning/planning-forms-and-applications.

Call the Planning Department to discuss town regulations if you're changing the use in the building.

New Construction

Contact the **Planning Department at (919) 554-6517** to discuss your proposed project.

A complete site plan application package is required in order for Town Staff to review the project for compliance with Town Code and regulations. The Planning Department Staff can assist you with specific questions regarding the plan submittal and review process.

The business owner or representative must also submit a permit application for Wake County to review the project. Visit the **Wake County Permit Portal** to set up an account and submit your permit application.

Signage

To apply for a new sign, visit rolesvillenc.gov/planning/signs and follow the instructions provided.

- Business Link North Carolina (BLNC) is a free service for anyone seeking to start a small business.
