

SIGNS

The Town of Rolesville regulates signs' size, illumination, and placement in Section 6.1 - Signs in the [Land Development Ordinance](#). Regulations vary by zoning district and the class of sign.

These provisions ensure that signs are compatible with the Town's character and do not create hazardous conditions for pedestrians, cyclists, or drivers.

For signage questions, please contact **Planner I, Tanner Hayslette, at 919-554-6517 ext. 217 or thayslette@rolesville.nc.gov**.

SIGN PERMITS

The Town of Rolesville issues two types of sign permits: permanent and temporary. All permit applications must include a completed [sign permit form](#), a rendering of the sign with dimensions, and a site plan or aerial photograph depicting sign placement.

- Permanent signs can be freestanding or affixed to a building. All permanent signs require a Town sign permit and a building permit. To obtain a building permit, please visit our [Permitting](#) page.
- Temporary signs requiring permits include banners, construction signs, feather flags, sandwich boards, special event signs, and temporary directional signs along State or Town roads and Granite Falls Boulevard.

Some signs do not require a permit, but their display must comply with the guidelines listed in [LDO Section 6.1- Signs](#).

To report a concern, please click [Report a Concern](#) at the top of every Town webpage.
